Final Plan - Spring 2007

What is the goal of this plan?

The goal of this plan is create a strategic framework to guide growth and development along Georgia Avenue to make it an attractive destination for residents, business owners and visitors.

How does this fit in with other planning efforts?

This plan is part of the Great Streets Initiative, a partnership of various District agencies including the Office of the Deputy Mayor for Planning and Economic Development, the Office of Planning, and the District Department of Transportation. Great Streets uses public realm investment, strategic land use plans and economic development assistance to improve the physical, economic and safety condition of the District's major corridors. The Upper Georgia Avenue Land Development Plan will also build upon existing community assets, public investments and past planning efforts.

Where can I get more information about this plan?
